Dr. David C. Huff
Associate Dean and Program Director
Cloud and Network Engineering Programs
Western Governors University

Dave, with Western Governors University since 2006, is currently serving as an Associate Dean and the Program Director of the Cloud and Network Engineering Programs. WGU's College of IT has over 46,000 Full Time Students, 45% of which are enrolled in Cyber Security programs.

Prior to joining WGU, Dave managed large-scale software development projects and consulted on SMB networking, knowledge management, and corporate training initiatives. Dave is also highly experienced in developing and operating automotive supply chain and manufacturing support systems.

Dave received his Doctor of Philosophy degree from Wayne State University in 2006. His other degrees include an M.S. in Information Systems and Telecommunication from the University of Colorado, an MBA from the University of Detroit Mercy, and a B.S. in Logistics from Penn State.

Dave also serves as an Adjunct professor in Statistics and Supply Chain at Wayne State University. He holds Cisco CCNA and CompTIA Cloud+ certifications. He has been a Lead Security Auditor for the British Standards Institute and a Certified Information Professional with the Association for Information and Image Management (AIIM).
